

You Can Achieve If You Believe!

July 2015

SOC Academy

This year I had the honor to be part of the 8th Annual Georgia System of Care Academy held at the Marriott Resort located in Stone Mountain, GA. Fernanda M, one of our DR3AMR'S had the opportunity to attend to get the most out of this wonderful experience. This year's theme was Embracing Transitions.

During our stay, we experienced an extensive range of workshops, TED talks, key note presentations and personal journeys

College Visits

On July 10th our clubhouse youth had the opportunity to visit ITT Technical Institute of Atlanta. We signed up for an official campus tour with Mrs. Nicole Johnson, Admissions Representative. Our youth learned about some of the interesting courses in their Program: Accounting Principles, Business Law, Management Information System, Fundamentals of Marketing, and Finance. While on campus, we went off the beaten path a bit after the admissions office and did a behind-the-scenes look with Ms. Johnson. At ITT Tech, we felt a warm welcome from all the staff since we opened the door and when we left.

Our youth were very receptive asking questions to Ms. Johnson about different study programs and financial aids. An ITT representative will visit our clubhouse in August with more details of their programs.

ITT Technical Institute

Art Institute of Atlanta

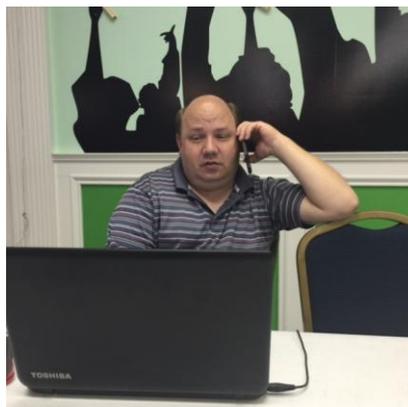

On July 23rd our clubhouse DR3AMR'S and staff had the opportunity to visit the Art Institute of Atlanta. We had a tour by Derrick Black. The tour lasted about an hour; their curriculum has Associate of Arts in Culinary Arts, Bachelor of Fine Arts in Graphic design, Illustration and Interior Design, Advertising, Audio and other interesting programs. We visualize some of our students that are very creative studying at the Art Institute of Atlanta.

Engaging Parents

On July 23, we had our Seventh Parent's meeting. This time the talk was about Negative and Positive thinking and how negative thinking affects the child development in their mental health. Some tips were given to parents on how to help kid stay positive, with positive thinking.

Thank You

Bobby!

Since DR3AMR'S clubhouse inaugurated, Bobby Hokett, our teacher was inaugurated, he has been there to support young people to stay in school, to improve their grades and graduate from high school.

More than 300 young people have benefited from the professionalism, dedication and passion of Bobby to contribute in building a brighter future for members of the clubhouse and their families. Bobby daily spent two or three hours to help with homework, projects and answer questions they all brought from their respective schools.

Today his family needs of him and we understand that he has already given us a lot and it is time for him to devote himself to his family. We will miss Bobby, even dressed as Santa Claus celebrating Christmas with us and supporting the education and employment of clubhouse activities, but we are left with the memory and teachings of a great person, excellent teacher and dedicated staff.
