You Can Achieve If You Believe!

September 2015

Let's Celebrate Recovery Month!

National Recovery Month is celebrated in the month of September. The main message of this month is that prevention works, treatment programs are effective and that people who struggle with mental health conditions can and do recover. For this cause, CETPA Clubhouse had the privilege of celebrating with our community this special event. Guest Speakers came to share their testimonies and last but not least we had prepared some delicious food to our guests!

RECOVERY IS POSSIBLE!

Lets celebrate being Latin@!

Hispanic Heritage Month is celebrated every year between September 15 and October 15. During the month of September our Dr3AMR'S started working on a project to learn more about our Spanish speaking countries. All of the Latin countries flags were painted on the ceiling giving the clubhouse a more Hispanic look! We continue preparing this celebration which ends next month.

Guest Speaker

Dr. Pierluigi Mancini visited our Clubhouse to share his story of how he recovered from his addiction with us. Since September is Recovery Month, our DR3AMR'S were able to learn more about this by listening to his testimony. Thank You Dr. Mancini for sharing your powerful anecdote !

HONOR ROLL

We always strive for excellence at the Clubhouse. Two of our members exceeded their academic grades in school and awards were given. We are so proud of Michael H and Winnifer P. Keep up the good work guys!

We Know How to Have Fun!
