

APRIL 2016

Spring is here, is the best time of the year!

New season, new projects!

In this new season our awesome youth worked very diligently to bring life and color by planting new flowers. They did an outstanding job.

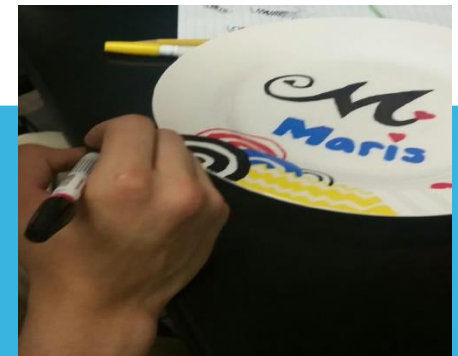

In addition to gardening, our youth repaired all the pool sticks that were damaged. Here at the Clubhouse, things are never too old!

Getting ready for Mother's Day!

This year our youth will surprise their mother with a plate decorated by their own hands! They are having fun in the process. We believe that this activity will help them express their love and gratitude towards their mother.

OUTREACH & EMPOWERMENT

“Youth Job Readiness Workshop”

On April 4th our youth attended the 2016 Youth Job Workshop hosted by Goodwill. They were taught how to write a resume, how to dress for a job interview, and how to become more professional in order to find a job. At the end of the workshop, all the youth received an completion award.

“Open Hand Atlanta”

We are proud to announce that on April 5th, our youth volunteered at Open Hand Agency, to pack meals for people who cannot afford proper nutrition. They worked with excellence and most importantly, they worked in unity! We are very proud of our DR3AMRS.

MORE EMPOWERMENT & MORE EDUCATION

Mature Plus

This month we started a new group called “Beginning to Work it Out” This group focuses on jobs skills and employment readiness. Each lesson focuses on building character, anger management, and problem solving.

Homework Tutoring

We are providing homework assistance to all of our youth . Our goal is to help them to attain a higher GPA, and to increase graduation outcomes.

Parent’s Meeting

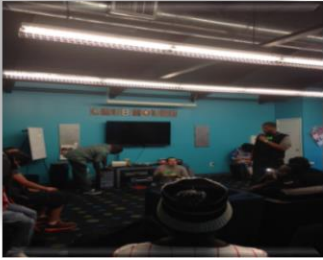

On April 14, we had speaker Juliana Ramirez from “*Iniciativa Comunitaria*”, to talk to our parents about adult sex coercion. It was a very interesting subject, parents were very receptive.

Radio Station

The students had the opportunity to speak live with DJ Holiday of Streetz 94.5 radio station in Atlanta Ga. With the new technology available in todays world of broadcasting. People are able to speak to each other on one radio station from various locations. The students talked directly to DJ Holiday via a digital “Remote Box” used by professionals daily.
